The "Jhon E Cash Collection" of Rare & Unique Notes!

A special offering for a select few friends, clientele and investors

Hi! I'm Jhon of Jhon E Cash Rare Currency in Dallas Texas. I have been a serious and astute collector of very rare and sometimes unique US star notes for many years. Most notably, I like the 1928, 1934 and 1934A \$500 and \$1,000 FRN star notes. Over time I have assembled what I think is the finest collection of serial number one stars and \$500* & \$1,000* notes ever assembled. The Jhon E Cash Star Collection includes many of the rarest and *finest examples known*. These American rarities are just nice to look at.

Due to email file size I had to break this Collection down into two parts.

For the first time ever, the *Jhon E Cash Star Collection* of star notes and other non star notes will be offered to serious buyers for a short period of time and will be offered in two parts. The 2nd part will be offered at a later date. Because of limited efile size I could only provided limited & short descriptions.

I would love to see these special star notes and other non-star notes end up into some of the other advanced collections that I know of. I know they are missing some of these notes. It may be another generation or longer before these become available again. This is a rare opportunity for collectors to acquire some often seen rarities that are missing from major collections.

It was a very hard decision and I already have seller's remorse, but I have decided to put these rare Star Notes back into the collecting community because I have done what I set out to do: complete a full set of \$500 FRN stars by district and a denomination set serial number 1 stars. Now it is time to pass these babies off to the next generation of collectors and start a new collection of.....

I have a real love for the currency market, more as a collector than a dealer. I really enjoyed collecting, cataloguing, viewing and studying these rare star notes and I truly hope the new owners will appreciate them as much as I have, for they are indeed very special, rare and unique! For me, it truly has been and is a labor of love.

I'm never getting out of the currency market, just changing strategies and looking for a new and exciting challenge. Sort of like getting divorced for the first time.

Smile and enjoy the viewing,

Jhon E Cash

THIS UNIQUE NOTE IS CONSIDERED BY MANY TO BE THE "HOLY GRAIL" OF ALL US SMALL SIZE CURRENCY NOTES!

This note is the "Crown Jewel" of the Jhon E Cash Collection!

- 1934 \$500 Kansas City Serial # 1* *Ser# J00000001* **PCGS-63PPQ**

This totally cool note is **UNIQUE**, a one of a kind true American rarity which should probably be in the famous ANA museum or at displayed at the Smithsonian for all the public to view. This is the only known serial number one star of all 1928, 1934 and 1934A \$500 and \$1,000 FRN's. This is a well known and famous pedigreed rarity that is sometimes referred to as the "Holy Grail" of all US small sized notes. I have had

the pleasure of owning this beauty since Sept. 13th, of 2001 when I purchased a 5 piece collection of serial number 1* stars. I paid a lot of money for the collection and this note, which was a record at the time for a single US small size note. An old good friend of mine, "Willy from Philly" Baeder once told me over a few cocktails that he bought this note back in the late 1960's for \$2,800 and flipped for \$3,000 to a friend of his, Harry Jones. Of course you could have purchased a Watermelon note back then for \$10,000-\$12,000 and a \$10,000 bill for \$10,000. How 50 years makes a difference. This beauty is considered by many as the most expensive of all small sized notes known right up with the serial number one 1933 \$10 Silver certificate. It is obviously the highlights of my *Jhon E Cash Star Collection*. I have been informed by some very long time astute dealers and collectors that the value of this note is between \$350,000 to \$450,000.

This note would be the highlight of anyone's collection!

The very first 1929 \$5 FRBN note printed and issued.

- **1929 \$5 FRBN Boston Serial # 1* Ser# A00000001* PMG-64EPQ**

This is another UNIQUE American rarity that should also be in a National museum on display. **How cool is it to own the very first 1929 \$5 FRBN note ever printed**, and it's a star note. This \$5 FRBN star was never put into public circulation and was most likely was a "Presentation Note" to a foreign dignitary or member of Congress. It is the only serial number one star from all denominations and districts of all the Federal Reserve Bank Notes issued. This is a

pedigreed and famous note. It was from the famous Dean Oakes Collection for many years and soon to be Ex Jhon E Cash Star Collection. I have owned this rarity since Dean Oakes sold his famous FRBN star collection in a Lyn Knight auction back in 2002 or 2003. This is definitely one of the highlights of my *Jhon E Cash Star Collection*. Ex: Dean Oakes, Ex: Jhon E Cash

I'm not sure how or where I got this # 1 star. I just found it in a box in one of my safes one day. What a pleasant surprise! Small head serial number one stars are the rarest by far as very few are known to exist. There are no rips, tears or pinholes in it. I wonder how long it stayed in circulation before someone discovered it was a serial number on star note. This is a solid and very affordable example of a serial number one star note. Ex Jhon E Cash

This is the **second lowest serial numbered \$500 or \$1,000 FRN star known**, only behind the Kansas City serial number one* star listed above. This note was off the market until discovered in a N. Carolina coin shop in 2008. It was advertised for 80,000 but I did pay considerable less than that. It has since been in the Jhon E Cash Star collection. This is a very

important serial number star to the serialized collector. It would be a perfect fit with the Kansas City \$500 serial number one star*. Ex Jhon E Cash

This is a unique and “one of a kind” example of a true American Rarity. It is a

rare opportunity when a collector can own any rare note that is unique. Only one collector can complete a district set and they must have this one to do so. I personally believe that in auction this 1928 Cleveland Star would easily bring more

than \$65,000 maybe more. This rare star note was previously advertised on a dealer’s website in 2001 for \$99,000 and I was informed that it did sell. I bought this unique star note from a private individual. This is my prized 1928 \$1,000 star. Ex Jhon E Cash

PMG POP 2/1 finer. Anyone need a Mule Star note? I have here a 1934 \$1,000 FRN Mule star* from the popular San Francisco district. It is housed in a PMG EF-40 holder. The serial number is L00003339*. A Mule is a notated when the back plate number is 5-11. This means it had a different front plate from the original back plate. Sound confusing? Advanced collectors would appreciate this tidbit of information. This note is the 2nd finest one that PMG has graded, the other one is in a PMG-55. Mule notes are highly collected and are in most cases much scarcer; except

for 1934A series. This is a super very nice problem free example. Ex Jhon E Cash

Windy City Winner! I got really screwed on this note. Apparently I'm not a very good grader, I will admit as much. I bought this note raw at a CAA Long Beach auction in 2005 as an advertised AU-58. Well as you can see PCGS did not think it was an AU-58. It is what it is; a PCGS AU-50 is still one of the higher grades recorded. The serial number is G00004590*. It really is a nice problem free star with good centering, dark inks and very good margins; you will not find the folds where ever they are unless you use a high powered

scope. This is a NON MULE note EX Jhon E Cash

This is one beautiful and high grade, problem free 1934 \$1,000 Chicago Star note. Check out the super cool serial number of G00002500*. This is also one of the nicer graded examples as most of these circulated notes are in low grades with lots of different issues. I found no rips, tears, bank stamps or pinholes. • **Fr.-39 1917 \$1 Legal Tender**

Ser# T1A

PMG-62

THIS NOTE IS UNIQUE! This is the first Fr.-39 1917 \$1 Legal Tender printed and is Unique to the FR # as it is only the 4th serial number one note known on all 1917 Legal Tenders. The other 3 are all FR-37s. This serial number 1 1917 Legal Tender has been in the *Jhon E Cash Collection* since 2003 when I purchased it in a highly competitive Stacks auction in New York City. I also purchased the T2A note several years later by chance. It is a real American rarity that needs to be in a museum. This was most likely a

“Presentation note” to a foreign dignitary or member of Congress. This is a very important note in currency lore as large size serial # 1 notes are very rare, especially in high grade. This is one of the highlights of the *Jhon E Cash Collection*. EX: Jhon E Cash

I finally found it! I've been searching for this note since late 2003 when I acquired the T1A note. This Fr.-39 is the mate to my other Fr.-39, serial number T1A that I purchased in 2003 at a Stacks sale in New York. I now can offer a matching 2 piece set. This is also a note that has never been cleaner or pressed as it is an EPQ note. At least you will have half of a cut sheet! EX: Jhon E Cash

How about a cool rare and pedigreed "double" \$2 error?

- **Fr.-1935 1972 \$2 FRN Dbl print**

Ser# D22822649A

PCGS-65PPQ

You are not seeing Double?

Few people have ever seen anything like this. This is an extremely dramatic and rare 1976 \$2 bill error note with multiple serial numbers and seals. I have owned two of the very few known. This is one of the most dramatic errors of all small size notes. In actuality this note was run through the BEP press twice which resulted in two completely different sets of serial numbers.

The Treasury Seal and district seal along with the district numbers are also printed twice. This is the only note printed with this type of error. It is four serial numbers apart which suggest they were in sheets of four. Go figure! Anyway it has been graded as a GEM PCGS-65PPQ and the serial numbers are ***D22822649A and D22822653A***. I sold a similar graded note for \$24,500 in a PMG-65PPQ holder a few years ago.

For the advanced error note collector, it doesn't get much better than this! This \$2 error is also featured in Dr. Fred Bart's 2nd edition book titled, "*United States Paper Money Errors*". In his book on page 20, he describes this note as; "*Penultimate multiple printing with radical separation between primary and secondary impressions on two dollar denominations which rarely yields spectacular mistakes*". This type of error is rated an R-9 error on the Relative Rarity Index, which is the highest rating.

If you are an advanced collector or simply want to own one of the most prestigious and pedigreed errors of all time now is your chance to own one of the finest examples known as well of this rare \$2 error note.

The following sets are rare and pedigreed notes from the famous "Zollie Kelman Collection": an 86 piece collection of 1899 \$1 SC Black Eagle Presentation Notes in various sets.

- **Fr.-233 \$1 SC Ladder set of 3 notes Ser# V12345678V PCGS-66PPQ**

The ultimate up ladder of numbers one thru nine on two notes.

This 3-Piece set of large size 1899 Black Eagle Presentation Notes is the **ONLY KNOWN SET** on any large size or small set of notes that consist of a complete and perfect UP Ladder numbers of **V12345678V** and **V23456789V** and a perfect DOWN Ladder number **V87654321V** and what makes this set unique is that this set is from the same series and FR #. This set has been off the public market since 1922 and Jhon E Cash is the 4th owner since 1922. All three notes are graded a

perfect PCGG-66PPQ. When you go to view this note, all six of the front and backs will be displayed for your viewing. This prized set of 1899 \$1 Black Eagles is from the famous "Zollie Kelman" Black Eagle Collection that I purchased from Harry Jones at the Memphis Show in 2005. The Zollie Kelman Collection consisted of 86 1899 \$1 SC Black Eagles that came in various serialized presentation sets. These rare uncirculated Presentation Notes were generally issued to Heads of State or Foreign Dignitaries as gifts by the US Treasury Department on behalf of the United States government. These Presentation Black Eagle notes were never released to the general public for circulation.

All these following sets are very special pedigreed serialized sets and I will not break them up for individual sales. This set was my favorite set of all my fancy serial numbered notes. Now is your chance to add this very rare and special set to your nice collection! It certainly will be one of the highlights of any advanced collection as it has been in mine.

This is another true American Rarity that is very rarely seen anywhere in any auction or private sale. There are only a handful of these “Rollover Sets” known to exist. This is one of only few set of 1899 \$1 Silver Certificates that have the "Hand Set" serial numbers of V99999999A and V10000000A. These rare sets are referred to as “Rollover Pairs”. These rare sets were hand set individually and printed by the B.E.P. as Presentation Sets for Foreign Heads of State and US Dignitaries. The solid 9’s alone, depending on condition sell in auctions for \$35,000 to \$40,000 each. The extremely rare 1,000,000,000 millionth notes are rarely seen for sale alone. I've owned this rare set twice.

I repurchased this 2 piece set again in a Lyn Knight Chicago Auction many years ago for a bit over \$62,000. I am now offering this rare set for back into the collecting community.

THIS IS YOUR CHANCE TO OWN A RARE PIECE OF CURRENCY HISTORY

The Zollie Kelman Collection consisted of 86 Black Eagles that come in various serialized sets. These Presentation Notes were generally issued to Heads of State or Foreign Dignitaries as gifts by the US Treasury Department on behalf of the United States government. These Black eagles were never released to the general public for circulation. These are very special serialized sets and I will not break them up for individual sales. They shall remain together forever.

You gotta see this "Presentation Set" of 10 Black Eagle Silver Certificates. The low two digit serial numbers are R10A to R100A. They are all graded from GEM PCGS-63PPQ to PCGS-66PPQ. The serial numbers are R10A to R100A in increments of 10. When you go to view this note, all ten of the Black Eagles will be displayed for your viewing. The Zollie Kelman Collection consisted of 86 specialized Black Eagles that come in various serialized sets.

These 10 Black Eagles were never released to the general public for circulation. These Presentation Notes were generally issued to Heads of State or Foreign Dignitaries as gifts by the US Treasury Department on behalf of the United States government. These are very special serialized sets and I cannot break up this stunning set. You will find additional sets of these notes through the website. Go view them as they are impressive. I hope you enjoy them as I have for so many years.

Thank you for considering the *Jhon E Cash Collection* of very special notes. If nothing else, I hope you enjoyed viewing these notes as much as I have over the years; for they are indeed true “American Treasures”, which a select few individuals will be fortunate enough to add some of them to their collections.

Here’s a toast from Texas, to all my friends, fellow currency collectors’ and Dealers.

Cheers!

Jhon E Cash
